

# ANALYSIS TEMPLATE FOR NINA

Jens Åström 2024-07-01

## Header 1

## Header 2

Quarto enables you to weave together content and executable code into a finished document. To learn more about Quarto see <https://quarto.org>.

## Running Code

When you click the **Render** button a document will be generated that includes both content and the output of embedded code. You can embed code like this:

```
my_result_1 <- 1 + 1
```

You can add options to executable code like this

The `echo: false` option disables the printing of code (only output is displayed), but you can access the values like this: 4.

## NINA - figures

You can use the package `NinaR` to access the official nina colors.

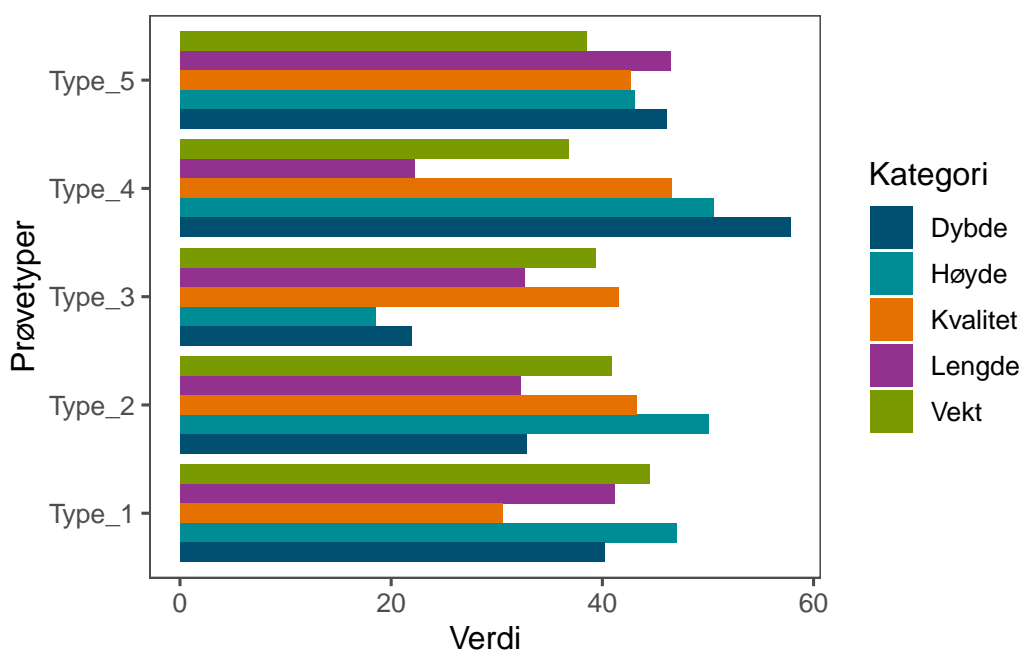

Figure 1: Ett eksempel med NINAs fargepalett generert fra R.

**New pages can be forced by adding a  
clearpage command**
