

# ANALYSIS TEMPLATE FOR NINA

Jens Åström

## Header 1

### Header 2

---

Quarto enables you to weave together content and executable code into a finished document. To learn more about Quarto see <https://quarto.org>.

### Running Code

---

When you click the **Render** button a document will be generated that includes both content and the output of embedded code. You can embed code like this:

```
1 + 1
```

[1] 2

You can add options to executable code like this

```
[1] 4
```

The `echo: false` option disables the printing of code (only output is displayed).

**New pages can be forced by adding a  
clearpage command**
